Manufacturer responsibility is likely to increase, while personal responsibility will decrease. Occupations and economies based on public transit, accident repair and auto insurance may suffer as technology makes certain aspects of these occupations obsolete. Over the last hundred years, innovation within the automotive sector has created safer, cleaner and more affordable vehicles, but progress has been gradual. Oluwatola, Autonomous Vehicles: A Guide for Policymakers, Santa Monica, California: RAND Corporation, RR-443-2-RC, 2016. After examining the advantages and disadvantages of the technology, RAND researchers determined that the benefits of the technology probably outweigh the disadvantages. The report also examines issues of policy, communications, regulation and standards, and liability issues raised by technology; and concludes with some tentative guidance for policy makers, guided largely by the principle that technology should be allowed and perhaps encouraged when it is above an average human conductor.
